

INVESTMENT OFFER

to Whom.

We would like to present an immediate investment opportunity for you in the procurement of gold dore. If you have questions after your initial review we would welcome the opportunity to answer these for you.

Kind regards

Thor Bloomfield
CEO / Director

Small quantity of gold mined from a local region in Kenya

The Investment

- Buying gold dore in Kenya in selling it in Dubai
- Controlling the transaction flow
- Working with our trusted suppliers
- A system and program designed by BCI
- Protecting our investment at every stage

Ground gold from a shallow reserve

The Flow of Funds

Flow of funds

1. A swift bank transfer from the Investors International Bank Account to the Investment Company's (IC) bank account (details on signature) for \$60,000 US Dollars.
2. Money arrives and will require 24 hours to be cleared funds. At which point the Investor receives notification of the deposit and can view the account balance if they wish.
3. The gold will be tested to the satisfaction of the IC. The Investors representatives can be present or video proof for the Investor can be sent to them after the testing is complete.
4. At this point the weight, and purity % for the Dore will be confirmed.
5. The cash payment for the agreed price of gold will be made by Investment Company for the escorted gold.
6. The gold will then be stored in a secure locked box in A tier 1 facility such as MySafe in Nairobi with 4 levels of security to protect the gold.
7. The documentation for exportation of the gold to an agreed destination will commence on the same day as the gold is purchased. This will facilitate a timely exit from Nairobi or a nominated international airport within Kenya.
8. The Gold will be transported as hand luggage and will be always with the delivery team.
9. Along with the Document Preparation and within 72 hours of the purchase, the IC will purchase 3 air tickets business class to the destination in Dubai. At least one representative from the IC who has a current Minerals Dealers License from Kenya in precious cargo transit will be on the Flight and the Seller. The remaining ticket to be issued to a BCI manager to fly as well. Flight details including costs etc. will be given to the investor for their records.
10. The team will provide an in-flight update to the investor to confirm the goods are safe and in transit.
11. Flight lands at the destination, the Transit Team, and the Seller clear customs. Safe keeping will be arranged if the refinery is not open at the time of arrival.
12. The gold will be taken to the refinery in Dubai to get a safe keeping receipt. Once the refinery is open, final transit will take place. The team wait for the final assay report.
13. The Team will meet the Investor to review the process of this, the first trial run. The Investor together with Investment Company, will propose any changes they wish to make before finally agreeing a long term larger investment into the Investment Company.
14. Investment Documents and Shareholder agreements to be signed prior to trading commencing.

The Collateral Company

We use a secure vault in Nairobi that has 4 layers of security to protect our gold.

The Vault in Sarit Centre, Nairobi

Safety Deposit Box

Clients Key Access Only

Automated Secure Box Storage

The Airline Company

Emirates Airlines is known for their secure transportation of gold through Sky Cargo. They have a very good reputation in Kenya for transporting gold to Dubai. We use them for our safety and security

Emirates can fly gold from 10kg to 500kg per flight from Kenya to Dubai

The Financial Model

Financial Deal Structure

Cost Side

~~Purchase of Gold~~ Investment Co estimate Dore at pricing of **\$46,000k** per Kg.

Flight tickets x 3 approx. **\$4,500** each

Export Documents, taxes, Hotels Security & transport at **\$4,650** per kilogram **10kg**

Total **\$60,000.00** USD

The Investment Return

Spot price today **\$63,174.00** kg

End Buyer Discount **-2%**

Final Selling Price **\$61,910.00**

At Spot **-2%** and a purchase price of **\$46,000** Kg of Dore

Profit Calculation

\$15,910.00 x 10kg = \$159,100.00 USD.

\$79,550 (50%) Investor Profit plus the initial Investment

(PLUS)

Investors initial **\$60,000** investment is returned to them within 7 days of sale of the gold.

Investor receives **50%** of the Profit, in this case

On condition that both parties agree to enter into a long-term agreement. The Parties would agree to leave the Profit in place to act as Working Capital for the next shipment.

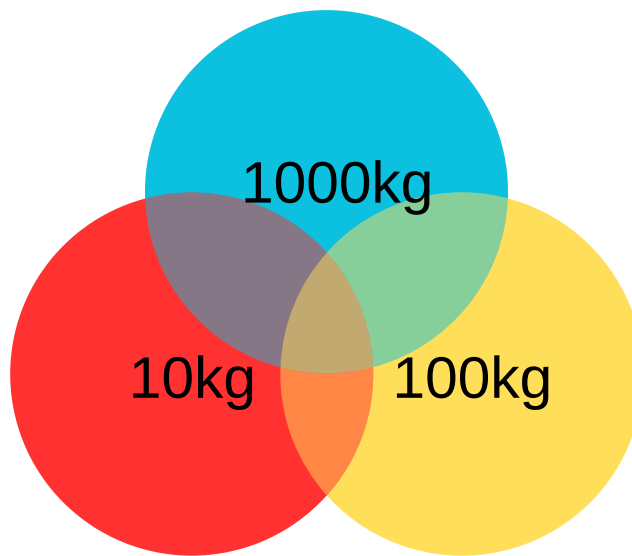

The original investment would be returned in either way.

Which give the investor a **132%** return on their funds.

Scaling Opportunity

SCALED MODEL

Investment Amount	Weekly	Weeks	Profit per week	Profit per year

\$6 MILLION	1,000kg	52	\$7,955,000	\$413,660,000

INITIAL INVESTMENT

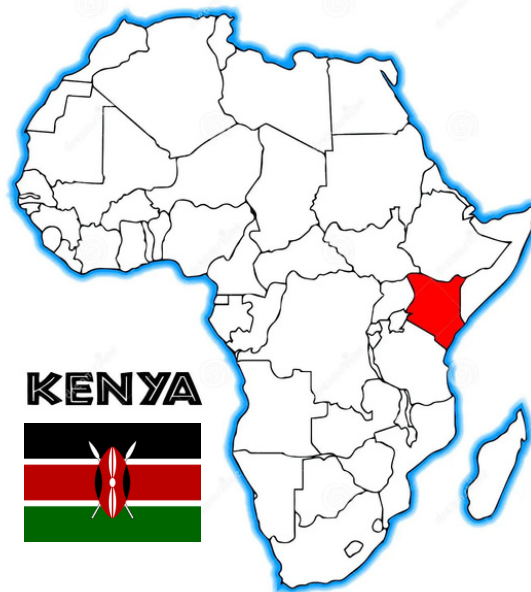

\$60,000.00

Investment term of 12 months

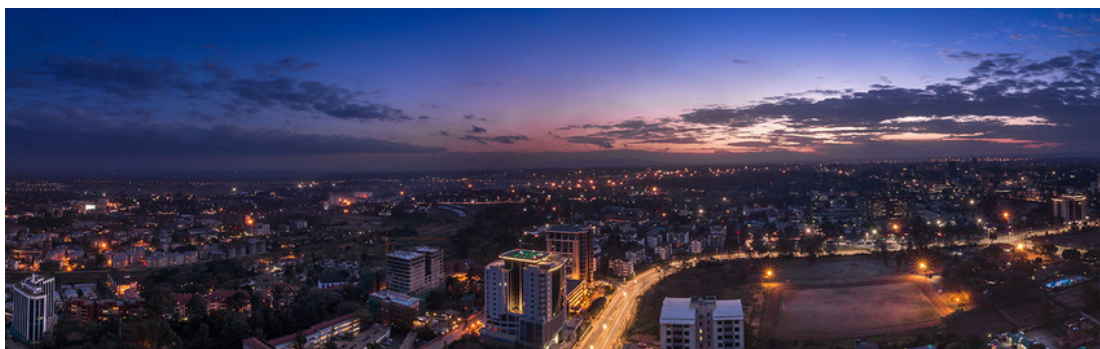

About Us

Bloomfield Capital Investments Limited started in Australia. We have been securing funding for property developments for 14 years. During the property crisis in Australia with escalating costs of building materials BCI moved in to commodities and precious metals. We moved our operations to Uganda in Africa. In Africa we have established a large network of suppliers of gold from Ghana in the West to Kenya and Uganda in the East. We run our operations on the ground and control all the movements ourselves. Our background in banking and finance is what protects our investment. We are exceptional in managing risk mitigation.

Our current Business Investment opportunity in Kenya

Kenya is a growing and sophisticated city for development and business trading

The Risks

What if the flights are delayed?

A, We wait patiently for the flight to resume and advise our partner in Dubai of the delay.

What if the delivery from the Mine is delayed?

Our program doesn't start until the gold arrives in Nairobi so its no loss to us.

What if the cost of delivery is higher?

A, We will make a business decision to negotiate it down or lose profit or change to another supplier.

What if the gold purity is less that quoted?

A, We will negotiate with the seller for a lower purchase price.

What if one of our staff is detained or unavailable?

A, We will use another highly trained member of our team in Africa.

What if the security team is unavailable?

A, We will have multiple teams from the Kenyan Police Force on standby and deploy them as required

What if we are attacked by thieves?

A, We will use the DCI Police to be the first responders in Kenya, they will protect us and call further police for back up. To avoid the attackers we will change routes regularly.

How are are funds kept securely?

A, The CEO of BCI is the only signatory of the account with the investment funds in it.

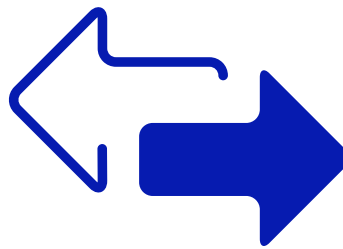

Investor Security

The investment funds will be held in a Top Tier bank account by BCI in Kenya at all times. BCI Director will be the only authorised signatory of the investment funds.

When the Investment Funds are released to pay for the shipping costs BCI will hold 2kg of gold in its place. The gold will be stored in MySafe Security Vault until the investment funds are returned.

Investment Funds
\$60,000

Value \$60,000

2kg of Gold
96% Purity

Value \$120,000

**We hold x2 time the value in gold as security
when we release the Investment Funds**

Summary

Based on the strategy above we would like your approval to move forward with the team at BLOOMFIELD CAPITAL INVESTMENTS LIMITED in the trial above. We have learnt from our previous trial. Our partners now include some of Kenya's elite police detectives with years of experience in protecting the top people in Kenya as well as Foreign Investors. We have in-housed the exporting and shipping contract for better control. We are going to maintain shipping in smaller regular batch to stay under the Kenya radar and visibility. We are using a smaller team that will work harder and cover more roles with better communication. We have scaled and realistic costs.

If you would agree to the trial then we can start this week. The First movement will be the funds moved to **BLOOMFIELD CAPITAL INVESTMENTS LIMITED** in Kenya this week.

*We look forward to your
feedback and participation.*

Thank you from our Team

Thor Bloomfield
